

DESCRIPTION

FSL in-line slitter converts material coming from a production line into a narrow strip thanks to a cutting module. An automatic winding change is completed after roll winding.

PRODUCT BENEFITS

- Easy to use and to maintain
- Optimal safety for the operator 

TECHNICAL FEATURES

Parameters	Range
Material width	1 000 - 2 000 mm
Speed	100 - 400 mpm
Roll diameter - unwinder	Ø 800 mm (integrated) - Ø 1 500 mm (separated)
Roll weight	Up to 1 000 kg
Roll diameter - winder	Ø 600 mm - Ø 800 mm - Ø 1 000 mm
Slitting technology	Crush - shear - razor blade

APPLICATION

- Material basic weight - low and strong
- Film (PET - PE - PVC)
- Laminate
- Adhesive
- Paper
